"At ADM, we are leading the way, not just in offering companies flexible talent solutions, but also in allowing independent professionals to take control of their own destinies."

Alexander De Beir, Managing Director

THE ADM WAY

We match the right profiles with the right projects. But exactly how do we do this? We follow four clearly defined steps:

1. LISTEN
We listen to the needs and objectives of the client.

2. PROJECTS
We translate these needs and objectives into clearly defined projects.

3. SCREENING
We search our database for contractors who are immediately available and who possess the skills needed to execute your projects or fill your temporary roles or interim management positions.

4. PAIRING UP
We set up a meeting between the client and the independent professional to discuss the requirements of the project, the temporary role or the interim management position. Once the proposal is validated, it's time to go to work.

OUR DNA

It's not about owning talent, it's about access to talent. ADM delivers that access through its 4 key values:
